

The B022 is a mini surface contact in an aluminium casing. The internals of the contact are sealed for durability & environmental resistance.

INSTALLATION:

Drill appropriate fitting holes for both contact & magnet in the mounting surfaces.

Fixing screws included.

Wire the contact as follows:

When wiring is to the desired specification, fit the contact to the mounting holes using the screws provided. Ensure that contact & magnet align as well as possible to ensure reliable operation.

OPERATING GAP: 24mm Approx
