

The E91NO is a heavy duty normally open surface contact in an aluminium casing. The internals of the contact are potted for durability & environmental resistance. This contact will also function with an optional angle bracket (part code: E91/E92BK).

INSTALLATION:

Drill appropriate fitting holes for both contact & magnet in the mounting surfaces. Wire the contact as follows:

When wiring is to the desired specification, fit the contact to the mounting holes using the screws provided. Ensure that contact & magnet align as well as possible to ensure reliable operation.

OPERATING GAP: 25mm Approx
