Roller Shutter Magnetic Contact 8K2 x 2 CE

Part Code: PDF10C8K2

Security Grade 2

Environmental Class 3

Manufactured to PD6662

GUARDALL

Sealed against outside attack.

(Can be used with just the reed switch and no resistors – connect the orange wire and the red wire).

1 2 To fit using both resistors, twist black & grey wires together & connect to your alarm, then connect the red wire to your second alarm terminal. This gives 8K2 when reed is open, (Magnet away), and 4K1 when magnet is in place, (Closed circuit).

3 The operating gap is 50mm.

White wires are the tamper loop.
