Large 8 Terminal Surface Magnetic Contact 8K2 x 2 CE

Part Code: PDM108K2

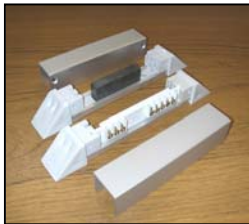

Security Grade 2 Environmental Class 2

Manufactured to PD6662

With Lid Tamper

CE

Can be used with just the 8K2 resistor in parallel with the reed switch (resistor is wired across reed) if in a shared Zone. Connect to the 4th and 6th terminals achieve this. If you don't want to use the resistor merely cut it off

If it is an end of line contact, connect the 6th and 8th terminals, which will then also bring the serial 8K2 resistor in to play. The operating gap is approx. 50mm.

The Microswitch is for the lid tamper; connect to terminals 5 and 7
Other terminals are spare.
